		Solihull Council is looking to acquire a cloud based (SaaS) central data store that all consultants and stakeholders have access to, commonly marketed as a Common Data Environment (CDE). Solihull Council has special requirements, in that the product has to read and distribute a large number of file types, heavy with data and some of which are large in size. Some files are specific to the building industry and therefore need to be BS1192 and PAS1192-2 compliant. With our Building Design Group operating as a business unit, we are hoping that they will be able to market their improved	2											
	_	capabilities to potential clients and demonstrate an extremely high level of control over construction contracts, from the feasibility stage, through to facilities management and beyond	,

		activities for disabled children and young people outside of the school day and enable disabled	2											
		children and young people to try new things,												
		gain new experiences and have more opportunities both with and away from their												
		families. Short Break Services are aimed at disabled children and young people who are												
		ordinarily resident in Solihull and aged from birth up to their 19th birthday (where possible												
		up to their 25th Birthday). Short breaks enable parents and carers to have a break from their												
		caring role, which may allow them to have a resi	t,											
		catch up on day to day activities, spend time with other family members or take up other												
		interests. The breaks can also benefit the rest of the family who might otherwise find it difficult t												
		arrange care and time for themselves. Carers and young carers may also be entitled to an												
		assessment of their needs in their own right. In Solihull we aim to have on offer a variety of												
		short break activities which can be accessed by any child or young person with a disability. We												
		aim to develop both inclusive and specialist												
		services to offer different support to different families, depending on what they need and
