

Free E-Cargo Bike Trials for Businesses

Thinking about how to reduce your carbon footprint as a business? How can you make 'last mile' deliveries more sustainable?

As part of Solihull Council's commitment to active travel; clean air; carbon reduction and congestion relief, we're launching free-of-charge electric-assisted cargo-bike trials. It'll help your business understand whether these new forms of transport have the potential to help replace car and van journeys on a daily basis.

If you are interested in loaning the bike or want to find out more information about the trial, please contact the sustainable travel team at sustainabletravelteam@solihull.gov.uk
