

# Sustainable schools webinars

These free webinars are hosted by Solihull Council and are aimed at headteachers, senior managers, eco-leaders, and teaching staff.

**Every online webinar will run from 3.45 to 4.30pm using Microsoft Teams.**

## 4 February - Webinar 1: Greener Solihull School Awards (GSSA)

Aimed at schools starting out their Greener Solihull School Awards journey, these sessions will share ideas, best practice, and guidance on the application process, focusing on Levels 1,2 and 3.

## 11 February - Webinar 2: National Education Nature Park

Discover how to connect students with nature and increase biodiversity in your outdoor space through the Department for Education's project, which provides access to a range of resources including digital tools, classroom activities and an interactive map.

## 25 February - Webinar 3: Developing a Climate Action Plan

Learn how to create a Climate Action Plan – a requirement for all schools by 2025 – with insights from Let's Go Zero, a national campaign helping schools reduce carbon emissions. This will also support Level 4 of GSSA.

## 4 March - Webinar 4: Climate Ambassadors

This webinar will introduce you to the Department for Education's Climate Ambassadors scheme and provide information on how to request a Climate Ambassador to support you with the development and delivery of a Climate Action Plan. This will also support Level 4 GSSA.

## 11 March - Webinar 5: Stark's AMR technology

Explore how Automatic Meter Reading (AMR) equipment can reduce energy consumption and drive sustainability, empowering students and staff to save energy.
