

Coronavirus

How to get a test

If you get **symptoms of coronavirus** you can now get tested.

Book a test as soon as possible. There is a new NHS website and **119** phone number you can call.

What happens?

You can ask for a test to do at home - a carer can help

Or you can ask to go to a local testing centre

An NHS worker will explain more on the phone or at the testing centre

If you have symptoms
Stay home for 7 days
Phone 119 to book a test
In an emergency call 999
