The Economist UK Edition

The Economist is the premier source for the analysis of world business and current affairs, providing authoritative insight and opinion on international news, world politics, business, finance, science and technology, as well as overviews of cultural trends and regular Special reports on industries and countries.

The Economist UK Edition

A new chapter • The Communist Party's obsession with control will make China weaker but more dangerous

The Iceberg Lady • Britain's prime minister wilts in a mess of her own making

Less is more • Europe has not done enough to curtail energy demand and boost the supply of gas

Keep your powder dry • Emerging economies have coped with the rate shock

CREATE

Notifications will appear:

- On your tablet with other notifications eg news
- Under the large symbol in the middle of the menu buttons (ringed in red). A number of notifications will show, click on the symbol and the notifications will show here

You can manage your Tags on the Tag page (ringed in blue).

Here you can see what tags you have placed and get a guide on how to create them.
