Solihull Local Development Framework: Gypsy and Traveller Site Allocations Development Plan Document Submission Draft (5)

Emma

Thank you for the opportunity to provide feedback to the proposed policy.

Network Rail is the "not for dividend" owner and operator of Britain's railway infrastructure, which includes the tracks, signals, tunnels, bridges, viaducts, level crossings and stations – the largest of which we also manage. All profits made by the company, including from commercial development, are reinvested directly back into the network.

As the proposed sites are not adjacent to any Network Rail land we have no comments on the proposals.

Regards
