9th May 2013

Dear Mrs Tinsley-Evans,

I am writing this letter on behalf of Mrs Tracy Pedley of Canal View, Salter Street, Earlswood, Solihull B94 6DE

Mrs Pedley would like to object strongly about the exclusion of her site from SMBC Gypsy & Traveller Site Allocations DPD- preferred sites.

Mrs Pedley believes that because there have been serious planning issues with a near neighbour she has been classed in the same category as a potential problem and feels that this is a very unfair attitude from the Council and one that she would like to have addressed.

Mrs Pedley has always maintained a good relationship with SMBC and has abided by their rules and regulations in planning processes. She successfully applied and had full planning permission granted in 2011, she is not seeking an extension to her site; only requesting to have 2 further plots in the future when required, with **no extension** to the existing site. The site that she refers to above has already been passed for 3 plots and this is all that Mrs Pedley is requesting.

Mrs Pedley has lived on her current site for more than 25years, her children were all born and raised in the Solihull area where they all attended local schools, the family are registered with the local GP and integrate well with the local community and have no outstanding issues with neighbours.

Mrs Pedley would appreciate if SMBC would reconsider their decision and include her site on their preferred list. Mrs Pedley is aware of the allocation of plots and timescales involved and would like to request that the Haven allocation of 12 be reduced by 2 to accommodate her needs in the future.

For and on behalf of
Mrs Tracy Pedley
