Dear Sirs/Madam

Geo Network Limited

Your Ref: The Haven

Thank you for your enquiry dated: 12-04-2013. We can confirm that our client's apparatus, (being Geo's Network) may be affected by your proposals as indicated on the attached plan(s). The plan(s) supplied are intended for general guidance only and should not be relied upon for excavation or construction purposes. No guarantee is given regarding the accuracy of the information provided and in order to verify the accurate location of the apparatus in conjunction with your proposals you should contact Geo's Mark up Service to arrange a site visit. Their contact details are:

Geo Network Limited
NOC, Magdalene House
Compass Point Business Park
Stocks Bridge Way
St. Ives
Cambridgeshire
PE27 5JL

Tel Number 0845 601 8215
Fax Number 0845 621 0053
email geosupport@noc.geo-uk.net

When contacting Geo's Mark up Service, **please quote the Enquiry Ref given at the top of this letter**, which is specific to this enquiry. Please note that you should contact Geo's Mark up Service within **28 days** of the date of this letter in order to validate this enquiry otherwise it will become void. Geo's Mark up Service will be able to provide guidance on the required procedures for working in the vicinity of Geo's Network. To reiterate you should not undertake any work or activity without first contacting Geo's Mark up Service for advice and, if required, supervision. Please note that implementation of any unapproved work that affects Geo's Network may result in serious consequences in terms of health and safety, expense and other attendant liabilities. In such cases it is the perpetrator of the act, together with any other promoting organisation, that shall be held fully accountable for any resulting damage. Should you require any further assistance regarding this letter please contact the undersigned or alternatively, you can contact Geo's Mark up Service via the details provided above.

Yours faithfully

FISHER GERMAN LLP

Dear Sir/ Madam,

Ref: GEO LS-130412-JR-832-TZD/AFF/GCP/NS

I recently received the attached from you in response to a consultation that Solihull Council is undertaking.

It appears that GEO's apparatus may be affected by a site that the Council is proposing to allocate for future Gypsy and Traveller use. You commented in a previous round of consultation that the presence of GEO apparatus in this location would not necessarily prevent the site being taken forward, but if there were any works on the approach road to this site then we would need to let you know in advance, in order to arrange for your plant protection officer to meet up with us to discuss your network protection.

I would be grateful if you could confirm whether this is still the case and that the presence of GEO apparatus in this location would not prevent deliverability of this site.

I look forward to hearing from you.

Kind regards,

Emma

Hello Emma

Can you please supply the previous information you was supplied from ourselves at Geo, as I am unable to find this information on our logging system. On receipt we would have provided a 5 digit number starting with SDE ***** and the Fisher German reference for that time. We can then view what you have been advised.

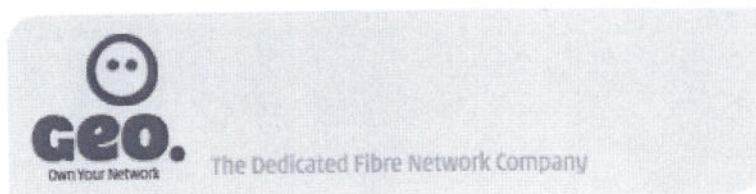

But on viewing the information you have provided this does still seem to be the case, where the only part we would be at risk is if any works are to be undertaken within the main entrance to the site or any works in the footpath/verge along Catherine De Barnes Lane.

Please provide the information requested if further correspondence is required.

Kind Regards

Kelly Bond

Hi Kelly,

Thank you for the reply.

Please find attached the email that was sent from GEO last time.

Best wishes,

Emma

Hello Emma

Can you please supply the previous information you was supplied from ourselves at Geo, as I am unable to find this information on our logging system. On receipt we would have provided a 5 digit number starting with SDE ***** and the Fisher German reference for that time. We can then view what you have been advised.

But on viewing the information you have provided this does still seem to be the case, where the only part we would be at risk is if any works are to be undertaken within the main entrance to the site or any works in the footpath/verge along Catherine De Barnes Lane.

Please provide the information requested if further correspondence is required.

Kind Regards

Kelly Bond
