# Using e-books on Android devices

Android devices include Kobo Arc, Touch, and other non-Apple tablets.

E-books may be borrowed from the library and downloaded directly onto an Android device, if the device has the Bluefire app installed, and Bluefire has been registered with the customer's AdobeID.

In some cases where later versions of the Android software are in place, an alternative method may be required to access the ebooks – see the end of these notes for more information.

#### 1. Is Bluefire installed?

The first thing to check is that Bluefire is installed - you should see the icon on one of the pages on the home screen.

If you tap on the icon, Bluefire will open, and display a list of the books available on the device. This will include any e-books borrowed from the library.

If it's not listed, it will need to be downloaded from Google Play Store or any other app store. It's free to download.

If Bluefire is installed, try step 2 below:

### 2. Is the AdobelD registered?

The publishers use a special encryption on their books so that they can't be copied and distributed. To download e-books from the library requires customers to have a valid Solihull library card, and to register an email address with Adobe.

If Bluefire is installed on the Android device, you can check if the Adobe ID is registered by opening Bluefire, and clicking on the info button at bottom right.

If the app isn't authorized, the box at the top of the page will ask you to authorize the app using your Adobe ID.

Click on Authorise to get the form below, then enter the Adobe ID details, and click on Authorise again

Adobe ID		
Password		
	Authorize	
	Canaal	

This will indicate if Bluefire has been linked with the correct AdobeID.

If it's not authorised, then the library card holder will have to obtain an AdobeID - see the FAQs on our e-book web page - **www.solihull.gov.uk/ebooks/** 

If it is authorised, then proceed to step 3 below:

#### 3. Have the books been downloaded?

If Bluefire is installed and authorised with the AdobelD, the next step is to download the ebooks. If they've already been borrowed, they may be downloaded again to the device. This requires the device to be connected to the Internet.

If you need to connect to the library wifi, go to the Settings option on the Android device homepage. (These instructions work in any Solihull library)

Select Solihull-Libraries from the list of	You will either have a notication from your
	device to login or you will need to open your browser, you will get a registration page i clearp-pm.solihull.gov.uk Charles Solihull Libraries The login to metwork using your registered E- The selection to
To set up a new account, fill in the form including your email and mobile number   Image: Solid constraints   Image: Solid constraints   Solid constraints   ClearPass   Solid constraints   Solid constraints   ClearPass   Solid constraints   Solid constraints   Visitor Registration   Please complete the form below to gain access to the network. Fease enter your contact phone number.   Confirm:   ClearPass   The email address.   This will become your username to use   I accept the terms of use	You will then get a confirmation text message →→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→→

Then you can go to the e-books home page - <u>www.solihull.gov.uk/ebooks</u> - and log in with the library card and PIN.

If you then tap on manage my account, you will see a list of the e-books currently on loan to the ticket used to log in. You should then be able to download the books to the Android device by tapping on the download button. The top button is the one to choose for Bluefire.

Once downloaded, the book should appear in the list of available books when you open Bluefire.

## Alternative method using Aldiko if above method does not work

1. Download and install the Aldiko app from the Play store or another app store

2. From the home page, select the Books button

3. From the menu click on About, then Adobe ID – this is where you need to enter your Adobe ID login and password to authorise the device you are using

GODE DITIM	
Signing in with your Adobe ID enables you to ope	en content protected with Adobe DRM.
Adobe ID	
Password	

4. To download ebooks, from the Books menu, select Other Catalogs

## 5. Select the My Catalogs tab

		a 🔤 05:55
